THE PARADOX

Educational systems worldwide claim to develop human potential while simultaneously suppressing it. This book analyzes education systems across the USA, China, India, EU—identifying universal patterns of genius suppression and pathways to transformation.

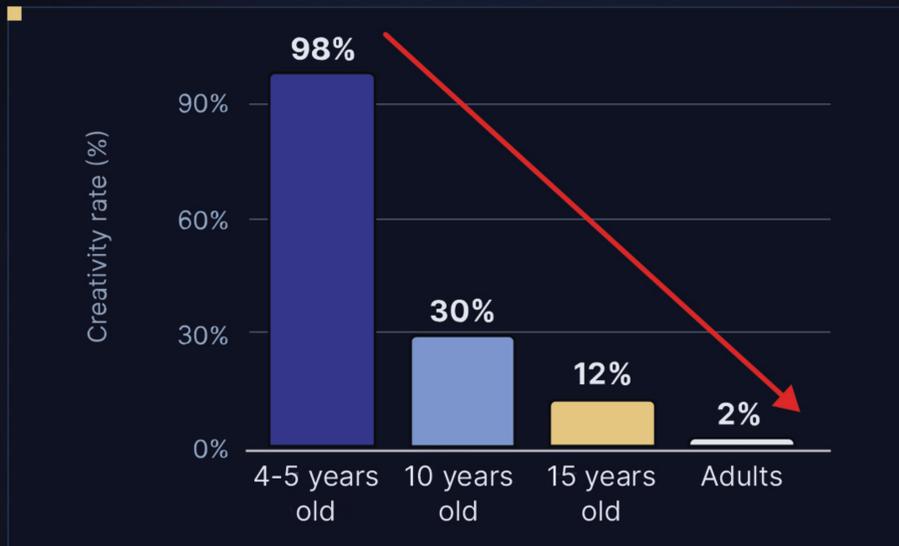

WHERE DID THE OTHER 96% GO?

THE DISCOVERY

In 1968, NASA tested **1,600 children**.

The results were astonishing: **98%** of 4-5-year-olds demonstrated genius-level creative thinking.

- By age 10: **30%**
- By age 15: **12%**
- By adulthood: **2%**

This book explains WHY this happens and WHAT WE CAN DO to prevent it.

THE SOLUTION

CODE OF GENIUS provides:

- The Neuroscience Behind Genius Development
- Three Critical Windows for Unlocking Genius (Ages 1-6, 6-16, 16-25), Seven Pillars of Genius
- The Myth of IQ Testing (& What Actually Works)
- Why Nature Hides Genius: The Evolutionary Paradox
- Evidence-Based Strategies to Identify and Unlock Genius
- Practical Tools for Parents and Educators
- Analysis of Why Global Education Systems Fail
- Transformation Roadmap: From Homo Sapiens to Homo Genius

WHAT LEADING EXPERTS SAY

"Parents, Teachers, and Society as a Whole Must Begin Creating Systems of Education and Upbringing That Truly Unlock the Potential of Genius in Every Child, and CODE OF GENIUS Can Be a Wonderful Guide for All of Us."

— Lawrence Sherman, FACEHP, FRSM, CHCP
President, Meducate Global, LLC

"A Must-Read for All Parents. If the Right Set of Strategies are Followed in the Early Years, Their 'Genius' Potential Can Be Unlocked."

— Dr. Peter Kent, OBE
Former President, International Confederation of Principals
Honorary Doctor of Letters, Warwick University, UK

"Must-Read for Every Parent and Educator. Every Child is Born With a Unique, Innate Form of Genius. Whether You are a Parent, Teacher, School Leader, or Education Enthusiast, This Book is Not Just Worth Reading; It is Worth Applying. The Real Future Belongs to Children Whose Genius is Recognized Early, Nurtured Sustainably, and Supported Consistently."

— Dr. Priyadarshi Nayak
Director Principal, St Xavier's High School
Founder and Chairman, Centre for Educational Development, India

CORE RESEARCH AREAS

Three Critical Windows of Development:

- Ages 1-6: Golden Window (100% Potential)
- Ages 6-16: Silver Window (60-80% Can Still Be Saved)
- Ages 16-25: Bronze Window (40% – The Last Chance)

WHO SHOULD READ THIS?

- Parents Seeking to Find Out Their Children's True Potential
- Educators Wanting to Recognize Innate Genius Beyond Test Scores
- School Leaders Designing Transformational Education Systems
- Family Counselors and Therapists
- Anyone Concerned About Losing Children's Genius Potential to Academic Pressure
- University Educators Training Future Teachers

KEY INSIGHTS

"Genius is Not Rare. It's Suppressed by the System."

"Every Child Has Innate Genius Potential. Your Duty as a Parent is to Help Identify and Unlock It."
